

A1 ARMORMESH LEVEL I

High Security Anti-Climb Fencing System

A1 ARMORMESH LEVEL I

A modular weld-mesh fencing system designed for high-security sites. Engineered with anti-climb and anti-cut features, the tight mesh apertures eliminate footholds and grip points, effectively deterring intrusion attempts and securing your perimeter.

The fence also provides high visibility, ensuring clear lines of sight for security personnel and surveillance systems.

ANTI-CLIMB & ANTI-CUT

The dense mesh design makes it difficult to grip thus prohibiting any chances of climbing

GOOD VISIBILITY

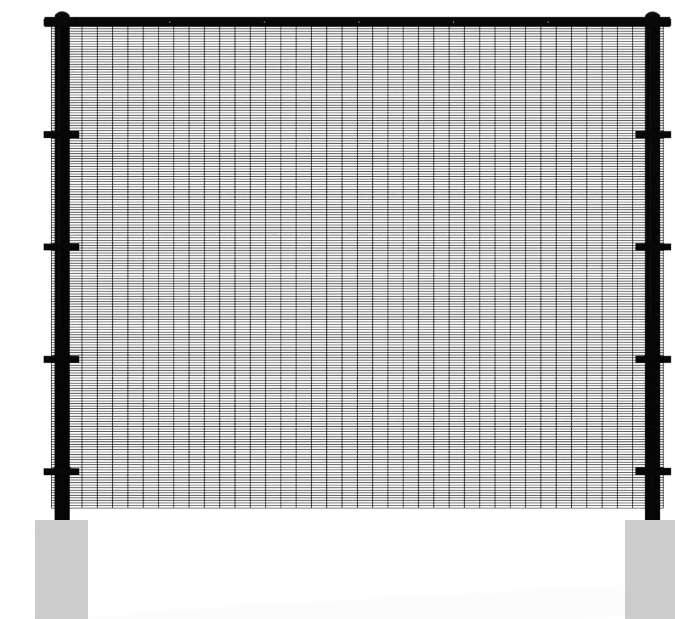

High visibility ensures clear sightlines for cameras and patrols - no blind spots, no compromises.

HIGH DETERRENCE

Concertina coil and wall spike toppers creates a formidable barrier that discourages potential intruders even further.

ASTM A123

Standard Specification for
Zinc (Hot-Dip Galvanized)
Coatings

BS EN 13438

Powder Coating
Standard

With A1 ArmorMesh Level I, enjoy 15 years of assured protection and warranty, combining security with sophistication.

PANEL

Mesh Size: 3" x 0.5"

Wire Ø: 4 ga / 6ga / 8ga / 10 / 10½ ga

POST

Post Type: **Circular post**

Post Size: Ø2-7/8"

Mounting: Embedded

Available heights: Ranging from 4' to 15'

Post Type: **C Channel**

Post Size: 3.25"x3"

Available Heights: Ranging from 4' to 15'

Mounting: Embedded

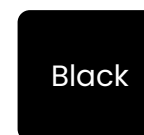

COATING

Finish: Polyester Powder Coated

Coating Thickness: Min. 60 microns (Top Coat)

Coating Standard: BS EN 13438
