

A1 ARMORMESH LEVEL II

High Security Anti-Climb Fencing System

A1 ARMORMESH LEVEL II

A1 ArmorMesh Level II is the one of the most secure forms of welded mesh panel fencing where the V-bend adds structural strength to the fence panels, making them more resistant to bending and deformation. Ideal for medium to high-security applications, this fence offers superior perimeter protection while maintaining an aesthetically pleasing appearance with 15 years of warranty. This increased rigidity helps the fence withstand physical impacts and environmental factors.

ANTI-CLIMB & ANTI-CUT

The dense mesh design makes it difficult to grip thus prohibiting any chances of climbing

GOOD VISIBILITY

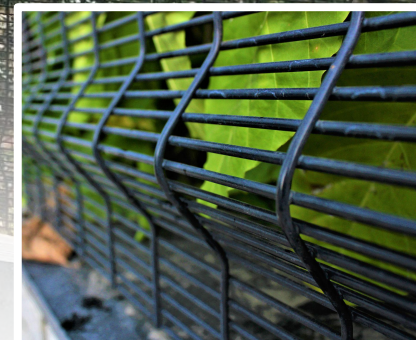

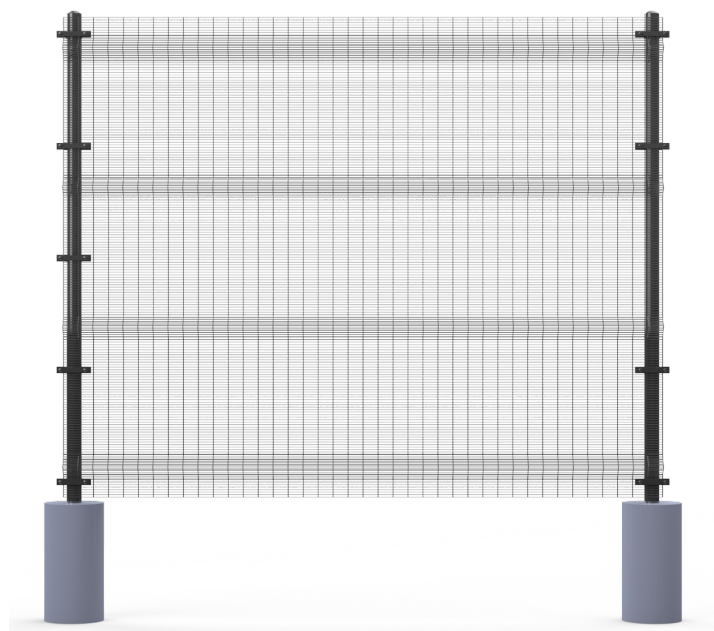

High visibility ensures clear sightlines for cameras and patrols - no blind spots, no compromises.

HIGH DETERRENCE

Concertina coil and wall spike toppers creates a formidable barrier that discourages potential intruders even further.

ASTM A123

Standard Specification for
Zinc (Hot-Dip Galvanized)
Coatings

BS EN 13438

Powder Coating
Standard

With A1 ArmorMesh Level II, enjoy 15 years
of assured protection and warranty,
combining security with sophistication.

PANEL

Mesh Size: 3" x 0.5"

Wire Ø: 4 ga / 6ga / 8ga / 10 / 10½ ga

POST

Post Type: **H Profile Post**

Post Size: To suit the Panel

Mounting: Embedded

Available heights: Ranging from 4' to 15'

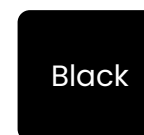

COATING

Finish: Polyester Powder Coated

Coating Thickness: Min. 60 microns (Top Coat)

Coating Standard: BS EN 13438
